

SAFELY BACK

COVID-19 GUIDELINES

The Associated General Contractors of Virginia (AGCVA) values the safety and wellbeing of its member businesses, their employees, AGCVA's employees, and anyone attending an AGCVA event. AGCVA will follow all venue, state, and local guidance and directives with respect to COVID-19. Understanding the value in-person events have to AGCVA and its members, AGCVA supports holding in-person events that follow necessary safety protocols to ensure the health and wellbeing of attendees and the local community. This will allow AGCVA to get "Safely Back" to normal operations.

AGCVA requires attendees at any AGCVA event to follow all federal, state, and local guidance with regards to COVID-19 protections. This includes current CDC guidance with regards to the wearing of masks. This applies to any AGCVA event, including district events, and in the AGCVA headquarters office in Richmond.

By attending an AGCVA event, all individuals are asserting that they are not experiencing COVID-19 symptoms, nor have they recently been exposed to COVID-19.

AGCVA will conspicuously post the above guidance at all events and in any official registration correspondence before such events. Failure to notify attendees of these requirements beforehand does not void the requirement.

Any questions can be directed to AGCVA staff by calling (804) 364-5504.
